STATEMENT OF RESPONSIBILITIES OF THE NATIONAL EXECUTIVE COMMITTEE

The legislation relating to trade unions requires the Union to submit a return for each calendar year to the Certification Officer. This return contains accounts which must give a true and fair view of the state of affairs of the Union at the year end and of its transactions for the year then ended. The financial statements set out on the following pages have been prepared on the same basis and are used to complete the return to the Certification Officer.

In relation to Advance the preparation of financial statements that give a true and fair view is the responsibility of the National Executive Committee. The National Executive Committee is responsible for preparing financial statements in accordance with the and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which form the basis for the account's information required to be included in the return. In preparing the financial statements, the National Executive Committee is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Union will continue in business.

The National Executive Committee is responsible for keeping proper accounting records and establishing and maintaining a satisfactory system of control over the Union's records and transactions in order to comply with the Trade Union and Labour Relations (Consolidation) Act 1992 (Amended). They are also responsible for safeguarding the assets of the Union and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

ADVANCE
ACCOUNTING POLICIES
YEAR ENDED 31 DECEMBER 2024

1.1 Accounting Convention

The financial statements have been prepared in accordance with FRS102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS102"). The accounts have been prepared under historical cost convention with items recognised at cost or transaction value unless otherwise stated in the relevant notes to the financial statements.

Trade Unions are governed by the Trade Union and Labour Relations (Consolidation Act) 1992 Amended. Under that Act the accounts of Trade Unions are required to give a true and fair view. Therefore, the accounts of Trade Unions are prepared under FRS102. However, as a Trade Union is not a company the Regulations that form the basis of disclosures under FRS102 have been adapted as considered necessary to ensure the accounts give a true and fair view to the members of the Trade Union.

The Union is a public benefit entity.

1.2 Presentation currency

The financial statements have been prepared in sterling, which is the functional currency of the Union. Monetary amounts of these financial statements are rounded to the nearest pound.

1.3 Going concern

The National Executive Committee regularly monitor the Union's financial position, cash flow and funding sources to ensure the Union can sustain operations for the foreseeable future. Following a review of budgets and long-term financial projections, the National Executive Committee has a reasonable expectation that the Union has adequate resources to continue in operation for the foreseeable future being a minimum of twelve months from the date of approval of these financial statements. Thus the National Executive Committee continue to adopt the going concern basis of accounting in preparing the financial statements.

1.4 Income

Subscriptions and meeting allowances are accounted for on an accruals basis. Draw income is recognised on cash received basis.

1.5 Expenditure

All expenditure in the accounts is inclusive of VAT where applicable.

ADVANCE

ACCOUNTING POLICIES

YEAR ENDED 31 DECEMBER 2024

1.6 Current Taxation

Corporation tax is payable on all interest income, rental income and chargeable gains arising on the disposal of properties and investments but only to the extent that these exceed expenditure on provident benefits.

1.7 Deferred Taxation

Unrealised valuation increases relating to investments and investment properties would potentially give rise to chargeable gains on the sale of the asset, but any potential liability to tax is eliminated if the proceeds of sale are reinvested in other chargeable assets used for provident purposes. The tax on any proceeds which are not reinvested is reduced by indexation allowances and any balance can also be offset against expenditure on provident benefits. Deferred tax has not been provided for potential chargeable gains because the General Secretary is satisfied that proceeds of the sale of all related assets can be substantially reinvested, sufficient that any remaining balance can be offset against allowance or expenses. Therefore no unrealised gain at 31 December 2024 is expected to give rise to a liability to tax.

1.8 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost, net of depreciation and any impairment losses.

Depreciation is provided on all tangible fixed assets to write off the cost less estimated residual value in equal annual instalments over the estimated useful economic lives of the assets. The estimated useful economic lives are as follows:

Fixtures, fittings & equipment	20% - 33%
Motor vehicles	25%

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is recognised in the income and expenditure account.

1.9 Intangible Fixed Assets – Website

Intangible fixed assets are initially measured at cost and subsequently measured at cost, net of amortisation and any impairment losses.

Amortisation is provided at rates estimated to write off the cost of the website on a straight line basis over its expected useful life which is deemed to be 4 years.

ADVANCE

ACCOUNTING POLICIES

YEAR ENDED 31 DECEMBER 2024

1.10 Investment properties

Investment properties are initially measured at cost and subsequently measured at fair value. Changes in the fair value of investment properties are recognised in the income and expenditure account.

1.11 Cash and cash equivalents

Cash and cash equivalents include cash in hand and deposits held at call with banks.

1.12 Financial Instruments

The union has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial assets are recognised in the union's balance sheet when the union becomes party to the contractual provisions of the instrument.

Financial assets are classified into specified categories. The classification depends on the nature and purpose of the financial assets and is determined at the time of recognition.

Basic financial assets

Basic financial assets, which include trade and other receivables and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Impairment of financial assets

Financial assets, other than those held at fair value through income and expenditure account, are assessed for indicators of impairment at each reporting end date. They are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. The impairment is recognised in the income and expenditure accounts.

Basic financial liabilities

Basic financial liabilities, including trade and other payables, are initially recognised at transaction price unless the arrangement constitutes a financing transaction. Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of the activity of the Union from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. Trade payables are initially recognised at

ADVANCE
ACCOUNTING POLICIES
YEAR ENDED 31 DECEMBER 2024

transaction price and derecognised when the Union's obligations are discharged cancelled or they expire.

1.13 Investments

Investments are a form of basic financial instrument and are initially recognised at their transaction value and subsequently measured at their fair value as at the balance sheet date using the closing quoted market price (where applicable). The income and expenditure account includes the net gains and losses arising on revaluation and disposals throughout the year. The Union does not acquire put options, derivatives or other complex financial instruments. The main form of financial risk faced by the Union is that of volatility in equity markets and investment markets due to wider economic conditions, the attitude of investors to investment risk, and changes in sentiment concerning equities and within particular sectors or sub sectors.

1.14 Realised gains and losses

All gains and losses are taken to the income and expenditure account as they arise. Realised gains and losses on investments are calculated as the difference between sales proceeds and their opening carrying value or their purchase value if acquired subsequent to the first day of the financial year. Unrealised gains and losses are calculated as the difference between the fair value at the year end and their carrying value. Realised and unrealised investment gains and losses are separated between surplus on investments and change in market value in the income and expenditure account.

1.15 Leases

Rentals payable under operating leases, including any lease incentives received, are charged to the income and expenditure account on a straight line basis over the term of the relevant lease.

ADVANCE

NOTES TO THE ACCOUNTS

YEAR ENDED 31 DECEMBER 2024

2 JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Union's accounting policies, the Union is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The Union consider that there were no estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities.

	<u>21,531</u>	<u>33,088</u>	<u>14,819</u>	<u>18,524</u>

16 CONTINGENT LIABILITY

As explained in note 1.7, no tax liabilities are expected to arise on the realisation of unrealised valuation increases on investments and investment properties. If the unrealised valuation increases at 31 December 2024 were all to give rise to chargeable gains (less indexation) the maximum liability to tax would be £124,796 (2023: £118,235).

17 RELATED PARTY TRANSACTION

Motor vehicles with a net book value of £20,464 were gifted to the outgoing deputy and general secretary in recognition to their service to the Union. There are no other related party transactions to disclose in 2024 (2023: £Nil).
